

57-57

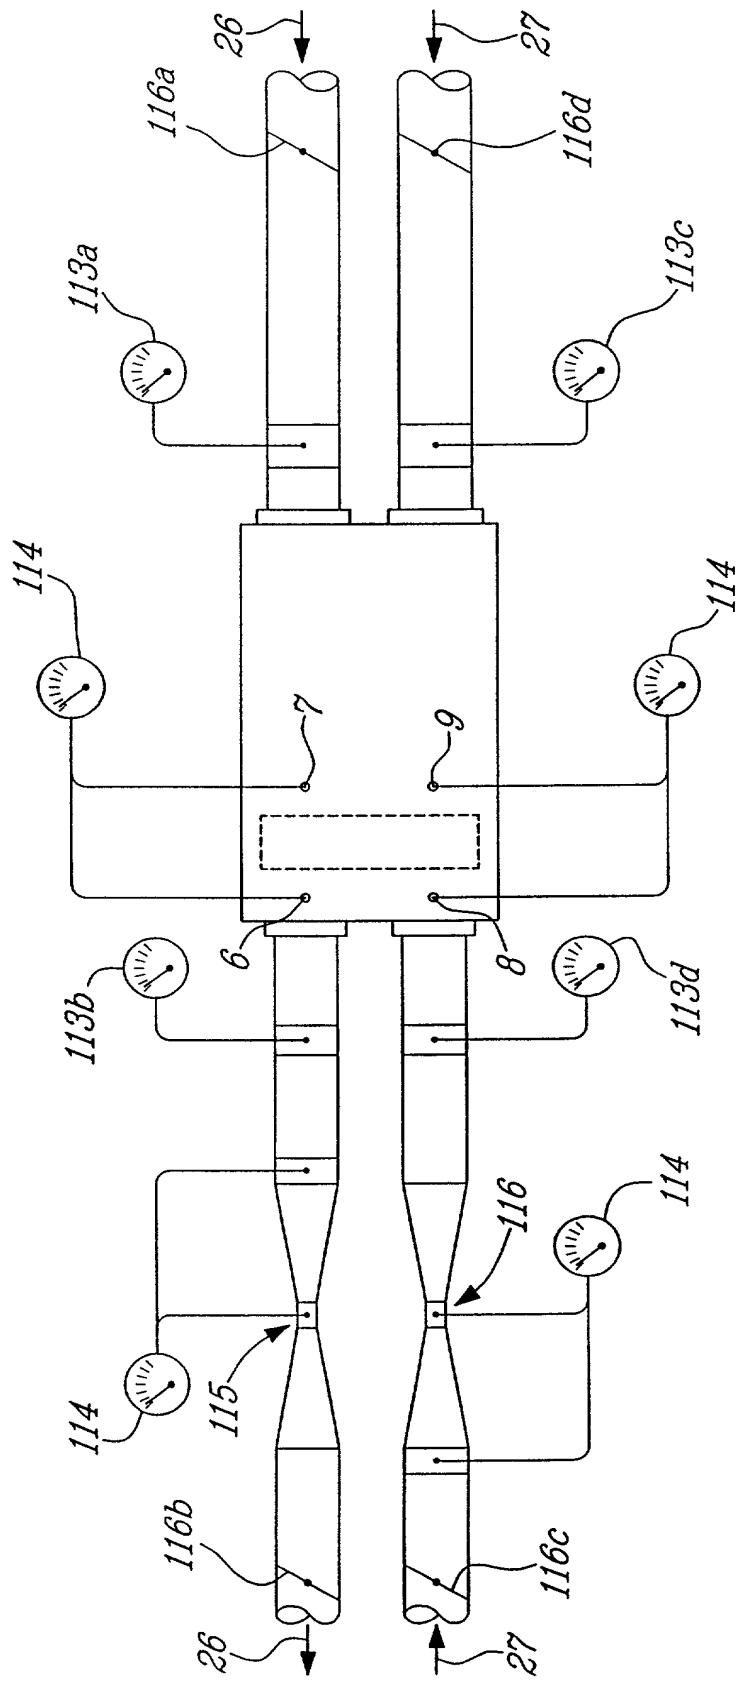

ET-11

This diagram shows a cross-sectional view of a second embodiment of the device. It features a central rectangular cavity (108) surrounded by a material with diagonal hatching. A horizontal layer (109) is positioned above the cavity. The top surface of the device is divided into two regions, labeled 4 and 5, which are separated by a vertical line. The bottom surface of the device is also shown with a wavy line.
